

Tile Sublimation Pricing

Unique - Stunning - gifts and decor.

Photo's of your family, pets, vacations, and art can now decorate your home or office on ceramic or glass tile. We can reproduce digital photo's, scans of printed photo's, scans of negatives and slides or original art.

Pricing is determined by the cost of the tile by size and type, the print of your digital image with sublimation inks on sublimation paper, and the time it takes to bake this tile or multiple tiles. Though these inks are different than your typical ink jet ink, we use our expertise to reproduce the correct color of your image.

The following pricing is put together by the typical job that comes into our place of business. In most cases our clients order 1, 2 or 4 tiles per finished piece. We are going to limit ourselves to pricing on this basis, but will be glad to give you an individual quote for your personal tile needs. This pricing INCLUDES the tile, print and baking of the tile/tiles.
